L1Difficulty 3

QTags Paragraph completion

Directions (12-15): Each of the following questions has a paragraph from which one sentence has been deleted. From the given options, choose the one that completes the paragraph in the most appropriate way

Q12. Corporate earnings data released as of now for the January-March quarter suggest that earnings might actually witness a significant fall from what they were a year ago. Growth has also been slowing down in core sectors as _____ across the economy. Still, investors may be hoping that things could get better in the coming years as a stable government at the Centre will be able to undertake economic reforms.

- (a) things can take a turn for the worse if subsequent events fail to meet
- (b) market fundamentals to warrant the kind of exuberance shown by investors on Monday
- (c) consumer demand has failed to pick up and liquidity remains a concern
- (d) easily cross the halfway mark required to form the next government
- (e) China tries to find new markets for products

L1Difficulty 3

QTags Paragraph completion

Q13. IMF chief Christine Lagarde and Ms. Gopinath, presciently warned that the world economy was poised at “a delicate moment”. Were tensions in trade policy to flare up again, it could result in _____, the IMF warned. Barely a month later, the world economy faces the very real risk of an escalation in this trade war where other countries, can largely only wait and watch as the U.S. and China raise the pitch.

- (a) administration unambiguously signalled it was not going to be the first to blink
- (b) large disruptions to global supply chains and pose downside risks to global growth
- (c) latest escalation in trade tensions pans out for global demand
- (d) when both sides were trying to negotiate a deal
- (e) retaliatory action, but was yet to spell out the measures

L1Difficulty 3

QTags Paragraph completion

Q14. Ecological economists have for years pointed to the extreme harm that humanity as a whole is courting by modifying terrestrial, marine and freshwater ecosystems to suit immediate needs, such as raising agricultural and food output and extracting materials that aid ever-increasing consumption. Expanding agriculture by cutting down forests has raised food volumes, and mining feeds many industries, _____, pollination, maintenance of wild variants of domesticated plants and climate regulation.

- (a) are endowed with greater biodiversity than others
- (b) there is particular worry over the devastation occurring in
- (c) but these have severely affected other functions such as water availability
- (d) only a quarter of the land worldwide now retains its
- (e) the current model of economic growth without factoring in environmental costs

L1Difficulty 3

QTags Paragraph completion

Q15. India first published almost nine years ago the broad contours of a plan to fight antimicrobial resistance. The difficulty has been in implementing it, given the twin challenges of antibiotic overuse and underuse. On the one hand, many Indians still die of diseases like sepsis and pneumonia because they don't get the right drug at the right time. On the other hand, a poorly regulated pharmaceutical industry_____.

- (a) its effects began to wear off by 2011
- (b) must appreciate that the only way to postpone resistance is through improved hygiene
- (c) means that antibiotics are freely available to those who can afford them
- (d) take it upon themselves to distribute drugs in a responsible manner
- (e) phasing out critical human-use antibiotics in the animal husbandry

L1Difficulty 3

QTags Paragraph completion

Solutions

S1. Ans. (d)

Sol. In the first blank, we cannot fit in 'epidemics', as it will make the statement contextually incorrect. Also, 'dispute' will not fit in grammatically. Therefore, we will eliminate options (a) and (c). Going further, 'signified' does not fit in contextually whereas, 'integrated' fits in contextually as well as grammatically. Hence, option (d) is the most suitable answer choice.

Epidemics: a widespread occurrence of an infectious disease in a community at a particular time.

Incapacitated: deprived of strength or power; debilitated.

Signified: be an indication of.

Integrated: combine (one thing) with another to form a whole.

S2. Ans. (c)

Sol. For the first blank, all the four words can fit in grammatically. Going further, for the second blank, no other word except 'carve' can make a grammatically correct and contextually meaningful statement. Hence, option (c) is the most suitable answer choice.

Downplaying: make (something) appear less important than it really is.

Entangled: cause to become twisted together with or caught in.

Underlying: be the cause or basis of (something).

Carve: produce (an object, inscription, or design) by cutting into a hard material.

Perpetrated: carry out or commit (a harmful, illegal, or immoral action)

S3. Ans. (c)

Sol. Among the given set of words, only 'engaged' and 'excluded' fit in the blanks to make the statement grammatically correct and contextually meaningful. Hence, option (c) is the most suitable answer choice.

Excluded: remove from consideration.

Engaged: participate or become involved in.

Anticipated: regard as probable; expect or predict.

Scrambled: make one's way quickly or awkwardly up a steep gradient or over rough ground by using one's hands as well as one's feet.

Recast: present or organize in a different form or style.

S4. Ans. (b)

Sol. Among the given set of words, only 'fateful' and 'asylum' fit in the blanks to make the statement grammatically correct and contextually meaningful. Hence, option (b) is the most suitable answer choice.

Fateful: having far-reaching and often disastrous consequences or implications.

Asylum: the protection granted by a state to someone who has left their home country as a political refugee.

Negotiable: open to discussion or modification.

Comparative: involving the systematic observation of the similarities or dissimilarities between two or more branches of science or subjects of study.

Presidential: relating to a president or presidency.

Provisional: arranged or existing for the present, possibly to be changed later

S5. Ans. (c)

Sol. Among the given set of words, only 'efficient' and 'accountability' fit in the blanks to make the statement grammatically correct and contextually meaningful. Hence, option (c) is the most suitable answer choice.

Preventive: designed to keep something undesirable such as illness or harm from occurring.

Accomplishment: something that has been achieved successfully.

Incumbent: necessary for (someone) as a duty or responsibility.

Consciousness: the state of being aware of and responsive to one's surroundings.
Integrity: the quality of being honest and having strong moral principles.

S6. Ans. (c)

Sol. Among the given words, 'analysed' makes the statement grammatically incorrect whereas, 'despot' does not fit in contextually. Therefore, we will eliminate the options (b) and (d). Going further, for the second blank, only 'impose' makes the statement grammatically correct and contextually meaningful. Hence, option (c) is the most suitable answer choice.

S7. Ans. (c)

Sol. Among the given phrases, we will eliminate the phrase given in option (d) because on filling it in the given blank, the phrase "he advocated the U.S.'s exit from the Human Rights Council and UNESCO ensure that" will be incorrect. The given blank must be filled in with a phrase that could basically denote the action taken by Mr. Bolton which has damaged multilateral institutions and agreements. Here, "presided over the cancellation of the multi-party nuclear deal with Iran" will make a grammatically correct and contextually meaningful statement. Hence, option (c) is the most suitable answer choice.

S8. Ans. (d)

Sol. Here, we will eliminate the phrase given in option (b) because the phrase has the conjunction "not only" which will be followed by "but also" in the next part of the sentence, which isn't the case. Also, option (e) will make the statement superfluous. Here, the phrase given in option (a) will not fit in contextually and grammatically. Among all the given options, only the phrase given in option (d) fits in contextually and grammatically and thus conveys exploring the routes of trade in Arctic. Hence, option (d) is the most suitable answer choice.

S9. Ans. (b)

Sol. Here, we will eliminate options (b) and (c) as they will form grammatically incorrect statement. Here, the placement of option (a) is correct as per the phrase preceding the blank but it will not connect with the latter part of the sentence, the part that follows the blank. We will also eliminate the phrase given in option (e) as it is grammatically incorrect. Here, if it would have been "within the next" then, it could have fit in grammatically. Here, only the phrase given in option (b) makes a grammatically correct and contextually meaningful statement. Hence, option (b) is the most suitable answer choice.

S10. Ans. (d)

Sol. Here, we will clearly eliminate options (a) and (e) as they will form a grammatically incorrect statement. Also, the statement given in option (c) may seem to follow the former part of the statement- "that he was threatening India with", but it will make the statement incomplete when joined with the latter part of the sentence, following the blank. Similar is the case with option (b). Among all the options, only the statement given in option (d) forms a grammatically correct and contextually meaningful statement. Hence, option (d) is the most suitable answer choice.

S11. Ans. (c)

Sol. Here, the writer has discussed the issues that will likely to be considered during the upcoming meeting. The phrase given in option (e) will be omitted because the phrase "World Trade Organisation structure cooperation" will make the statement grammatically incorrect. Also, the phrase "India-US trade collective" will be an incorrect phrase. Therefore, option (d) will also be eliminated. Here, the phrase given in option (c), will connect well with the former and latter part of the statement. "Trade impasse" which means a stagnant/ deadlock and "plans for Indo- Pacific military cooperation" are the possible issues to be considered. Hence, option (c) is the most suitable answer choice.

S12. Ans. (c)

Sol. Here, we can omit option (a) as it is contextually different and fails to be a coherent part of the paragraph. Also, options (b) and (d) will make a grammatically incorrect statement when fit in the blank. Here, from the former part of the sentence, we can infer that we will need to mention a reason for slowed growth, and the phrase given in option (c) completely justifies the reason. Hence, option (c) is the most suitable answer choice.

S13. Ans. (b)

Sol. Here, we will omit option (a) as it is grammatically incorrect for the given blank. The former part of the sentence indicates that the blank the phrase which will fill in the blank will mention the result of tensions in trade policy. Here, the phrase given in option (b) will perfectly fit in the given blank. Hence, option (b) is the most suitable answer choice.

S14. Ans. (c)

Sol. The passage given above discusses how the growing economic activities have affected the ecology. In the given blank, apart from phrase given in option (c), no other phrase makes a grammatically correct statement. Therefore, option (c) is the most suitable answer choice.

S15. Ans. (c)

Sol. Here, we can clearly omit the phrase given in option (d) as from the former part of the sentence [“poorly regulated pharmaceutical industry”] we can infer that the blank will be filled with a phrase which can support the drawback of the pharmaceutical industry. Here, only option (c) fits in the blank to make the statement contextually meaningful and grammatically correct. Hence, option (c) is the most suitable answer choice.
